COOKIE POLICY

Cookies that keep things working. Nothing that tracks you.

Every cookie and browser entry Acarise uses, what it is for and how long it lasts.

VERSION	EFFECTIVE FROM	APPLIES TO	OWNER
1.1	5 October 2026	acarise.com and the Acarise app	Acarise Ltd

01 The short version

WHAT WE DO NOT DO Acarise sets no advertising, marketing or analytics cookies, and allows no third-party tracking cookies. We do not build profiles of visitors, and we do not share browsing data with anyone for their own purposes.

What is left is small: cookies that keep you signed in, a few that remember a choice you made, and one browser entry that remembers you have seen our cookie notice. This policy sits alongside our Privacy Policy, which covers personal data more broadly.

02 What a cookie is

A cookie is a small file a website asks your browser to keep, and sends back to the site on your next visit. It is how a site remembers, for example, that you are signed in as you move from one page to the next.

Local storage does a similar job, but what it keeps stays in your browser and is never sent to us. We use one local storage entry, listed below for completeness.

03 The public website

Reading acarise.com sets no cookie unless you choose a language.

NAME	TYPE	WHAT IT IS FOR	HOW LONG IT LASTS
`nf_country`	Cookie	Remembers UK or US English, set only when you choose one with the language switch.	1 year
`acarise:cookie-notice`	Local storage	Remembers that you dismissed the cookie notice, so it does not appear on every page. It never leaves your browser.	Until you clear your browser data

04 The Acarise app

Signing in needs cookies. Without them the platform cannot tell one signed-in user from another.

NAME	TYPE	WHAT IT IS FOR	HOW LONG IT LASTS
Sign-in cookies	Cookie	Keep you signed in as you move between pages, and tell our server which account is making each request.	Until you sign out or your session ends; renewed while you are active
`active_workspace_id`	Cookie	Remembers which workspace you last opened.	1 year
`pending_invite`	Cookie	Holds a teacher's invite link while you create your account, so you land in the right group.	10 minutes

KEEP THEM TO YOURSELF Sign-in cookies hold your session. Treat them as you would a password: do not copy them out of your browser or share them.

Why there is no consent banner in the app. Under the Privacy and Electronic Communications Regulations, cookies that are strictly necessary for a service you asked for, or that remember a choice you made, do not need consent. The app sets nothing else, so there is nothing to ask you about.

05 Managing cookies

Every browser lets you see the cookies a site has set, delete them and block new ones. The controls are usually under Settings, then Privacy.

If you block cookies for app.acarise.com, you will not be able to sign in to the app. The public website will still work. Clearing your browser data also clears the cookie notice entry, so the notice will appear again on your next visit.

06 Changes to this policy

If we start using a cookie that is not listed here, we will update this policy before we do, raise the version number and, where the law requires consent, ask you first. Questions go to **contact@acarise.com**.

Version history

VERSION	DATE	CHANGE
1.1	5 October 2026	Lists the website's language cookie and every cookie the app sets.
1.0	23 September 2026	First issue.
